Brainstorm 15 best and worst ideas and make a video

Brainstorm 15 startup ideas and write a couple of sentences describing each.

Five of these ideas should be "worst" startup ideas - that is, ideas that could never work or are bad ideas. This will help get your creativity going.

10 of these should be "good" startup ideas. Ideas that you might potentially want to work on for the rest of the class with the team that you will form.

Pick one of the "good" ideas and make a video or slide deck briefly introducing it.
