Evaluations submitted by [Karen West](#)[Evaluate a New Submission](#)

Peer review gives you the chance to evaluate the work of other students in the class by following a rubric created by the instructor. Each peer review you complete enables you to practice thinking like an expert, so you will gain a deeper understanding of the assignment. In fact, studies show you learn more from evaluating your peers' work than just creating your own.

To complete a peer evaluation, please follow the rubric below. Remember that detailed and honest feedback is most helpful to you and to your peers.

Please note: your name will appear next to any written feedback you provide, but all numeric scores will remain anonymous and be shared only as an average across all evaluators.
